

OPTIONAL ACCESSORIES

GMK 38
Item No. 601261
Measuring cable, BNC to 2x banana plugs

GHE 38*
Item No. 483743
Reciprocating Piston Electrode

GSE 38*
Item No. 483744
Impact electrode, for driving in Ø 2.5 mm steel poles

GSG 38*
Item No. 483745
Impact electrode with handle, for driving in Ø 2.5 mm steel poles or for GMS 300/91

GST 91
Item No. 601273
Steel pins 9 steel poles (3 each, 12, 16 and 23 mm long) in plastic box, Ø 2.5 mm

GST 91/40
Item No. 601275
Steel pins 10 steel poles, 40 mm long, Ø 2.5 mm, in a plastic box

GST 45i
Item No. 601277
Steel pins 2 pieces of teflon-insulated steel poles, 45 mm long, Ø 2.5 mm

GST 60i
Item No. 601279
Steel pins, ditto, 60 mm long

GOK 91
Item No. 601287
Surface measuring caps (pair, for screwing onto GSG 91 / GSE 91)

GMS 300/38
Item No. 483741
Measuring rods (pair, for screwing onto GSG 38 / GSE 38), for wood chips, wood wool, paper, cardboard, etc.

GST 15B *
Item No. 601281
2 steel pins with hole, 15 mm long, Ø 3.8 mm (for direct connection of the GMK 38 measuring cable)

GST 25B *
Item No. 601283
Steel poles, ditto, Ø 3.8 x 25 mm

GST 40B *
Item No. 601285
Steel pins, ditto, Ø 3.8 x 40 mm

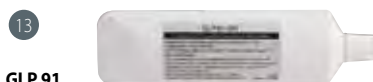

GBSK 91 *
Item No. 601293
Wire brush probe for material moisture measurement

GBSL 91 *
Item No. 601294
Wire brush probe for material moisture measurement

GEF 38 *
Item No. 601296
Flat electrode for material moisture measurement, for screed, paper, etc.

GLP 91
Item No. 601299
Conductive paste for material moisture measurement, for surface measurement and depth measurement in walls, screed etc. with brush probes

GSF 50 (110 cm)

Item No. 601305

GSF 50K (43 cm)

Item No. 601308

GSF-50-150 (special length 150 cm)

Item No. 485276

Material moisture insertion probe, (without temperature sensor) for measurements at measuring depths of up to 40 cm or 107 cm, incl. 1 m connection cable.

Suitable for: wood chips, wood wool, wood shavings, straw, hay, grain, sawdust, etc.

GSF 50TF (110 cm)

Item No. 601312

GSF 50TFK (43 cm)

Item No. 601313

GSF-50TF-150 (special length 150 cm)

Item No. 485266

Material moisture insertion probe, with temperature sensor for measurement at measuring depths of up to 40 cm or 107 cm, incl. 1 m connection cable

Suitable for: wood chips, wood wool, wood shavings, straw, hay, grain, sawdust, etc.

GSF 40 (67 cm)

Item No. 601316

Material moisture insertion probe, (without temperature sensor) for measurement in pressed bales at a depth of 60 cm, incl. 1 m connection cable.

Suitable for: pressed hay and straw bales, grain

* Measuring cable GMK 38 required for GHE 38, GSE 38, GSG 38, GST 15B / 25B / 40B, GBSK 91, GBSL 91, GEF 38, GSP 91, GMZ 38

OPTIONAL ACCESSORIES

20

GSF 40TF (67 cm)

Item No. 601319

Material moisture insertion probe, with temperature sensor for measurement in pressed bales at a depth of 60 cm, incl. 1 m connection cable.
Suitable for: pressed hay and straw bales, grain

21

GTF 38

Item No. 601347

Material moisture temperature sensor Ø 2.2 mm, for insertion in measuring pole holes, potential-free, recommended for wood moisture measurement

22

GES 38

Item No. 601350

Insertion sensor, Type K, potential-free, Ø 4 x 150 mm, 1 m cable (recommended for wood moisture measurement)

23

GPAD 38

Item No. 601328

Test adapter (with 2 test points) for GMH 38xx and GMR 110

24

Fig.: GMH3831 in ST-RN

GKK 3500

Item No. 601052

Soft case with cutout e.g. 2x GMH 3000 or 5000, 395 x 295 x 106 mm (W x H x D) (devices and accessories not included)

25

ST-RN

Item No. 601074

GMH 3000 protective bag made of Nappa leather, 2 connections (1 x round, 1 x rectangular) (suitable for GMH 3831, GMH 3851)

ACCESSORY SETS

SET WITHOUT DEVICE

SET 38 HF

Item No. 602071

Material moisture supplement set for GMH 3831/51 (without device), wood moisture

CONTENT:

- GKK 3500 (case)
- GMK 38 (measuring cable)
- GSE 91 (impact electrode)
- GST 91 (measuring pins)
- GTF 38 (temperature probe)

USAGE:

Wood

SET WITHOUT DEVICE

SET 38 BF

Item No. 602073

Material moisture supplement set for GMH 3831/51 (without device), wood and building moisture

CONTENT:

- GKK 3500 (case)
- GMK 38 (measuring cable)
- GSE 91 (impact electrode)
- GST 91 (measuring pins)
- GTF 38 (temperature probe)
- GMS 300/91 (measuring rods)
- GBSK 91 (wire brush probes)
- GLP 91 (conductive paste)

USAGE:

Wood, concrete, screed, plaster

SET WITHOUT DEVICE

SET 38 MPA

Item No. 602075

Material moisture supplement set for GMH 3831/51 (without device), MPA wood moisture, accessories as tested by MPA for glued wood construction requiring approval

CONTENT:

- GKK 3500 (case)
- GMK 38 (measuring cable)
- GHE 91 (Reciprocating piston electrode)
- GST 91 (measuring pins)
- GTF 38 (temperature probe)

USAGE:

Wood, glued wood construction, production of glued laminated timber

MATERIAL MOISTURE COMPLETE SET

GMH 38-LW1-TF

Item No. 606470

GMH 38-LW1-TFK

Item No. 606462

GMH 38-LW2-TF

Item No. 606471

GMH 38-LW2-TFK

Item No. 606463

Moisture measurement set for agriculture

GENERAL:

Measuring instrument for fast material moisture determination in bales and bulk goods. Universally applicable aid for damage prevention and quality assurance. The over 1 m long probe with integrated temperature probe is very well suited for measurements in hay and straw bales as well as bulk material. By penetration the material to be measured, moisture and temperature can be determined quickly and easily.

APPLICATIONS:

- Hay, flax
- Straw, grain
- Wood chips
- Wheat
- Barley

A simplified moisture assessment is carried out in 9 stages.

TECHNICAL SPECIFICATIONS:

Device: GMH 3831 or GMH 3851

Insertion probe: GSF 50, GSF 50K, GSF 50TF, GSF 50TFK

scope of delivery

GMH 38-LW1-TF: GMH 3831, GSF 50 TF, battery, operating instructions

GMH 38-LW1-TFK: GMH 3831, GSF 50 TFK, battery, operating instructions

GMH 38-LW2-TF: GMH 3851, GSF 50 TF, battery, operating instructions

GMH 38-LW2-TFK: GMH 3851, GSF 50 TFK, battery, operating instructions
