Vantage Pro2 Sensors

art.no. 6440

soil moisture sensor

The Watermark® soil moisture sensor uses the electrical resistance to measure the moisture of the soil. It requires a leaf & soil moisture/temperature station (art.no. 6345). Up to four sensors can be added.

scope of delivery:

- soil moisture sensor
- 4.6 m cable

soil moisture	meas. range:	0 cb to 200 cb
	resolution:	1 cb
general information	sensor:	electrical resistance
	dimensions:	22 mm diameter x 76 mm length
	weight:	approx. 0.103 kg
	cable type:	WATERMARK standard, two-wire, wires stripped and tinned
	attached cable length:	4.6 m
	recommended maximum cable length	300 m (18 AWG UF recommended)
